ASK OUR TEAM HOW

Collaboration leads to the best possible outcomes before, during, and after surgery.

At Tower Health, our top board certified, fellowship trained surgeons collaborate across specialty areas — so we can continue delivering excellence in surgical care for every patient and community we serve. Offering advanced services from inpatient and outpatient procedures to the latest, minimally invasive techniques and technologies, we’re not just elevating your comfort and expediting your recovery time. We’re advancing personalized surgical care across a range of conditions and injuries — so you can continue living the life you love, healthier than ever.

Brandywine Hospital

By bringing together board certified, fellowship trained surgeons with expertise across a range of specialty areas, we’re driving faster recovery times and improving outcomes after every surgical procedure.

Timothy Fox, MD  Laura Gowen, MD  Scott Kripke, MD

David Reel, DO  Susan Sees, MD

*All surgeons listed have medical staff privileges at Brandywine Hospital.*
