PRACTICE FOCUS

The Breast Health Center at Phoenixville focuses solely on problems of the breast, both benign and malignant. The Breast Health Center offers patients individualized, multi-disciplinary care with supportive staff, plus the advantage of working directly with other Phoenixville Hospital resources, such as advanced diagnostic imaging and a comprehensive cancer center. Our Breast Care Navigator guides breast cancer patients through diagnosis, treatment and survivorship. The Center offers ultrasound guided and stereotactic breast biopsies.

OUR PHYSICIAN

Bruce Weiner, MD, is the Medical Director at the Breast Health Center at Phoenixville Hospital. With more than 25 years' experience, Dr. Weiner was one of the first surgeons in the Philadelphia region to perform stereotactic breast biopsy, sentinel node axillary biopsy, utilize Savi Scout to help locate and guide lesion removal and insert BioZorb surgical markers. Dr. Weiner is certified as a Hidden Scar Trained Surgeon for Hidden Scar™ Breast Cancer Surgery. He is one of only a handful of surgeons certified by the American Society of Breast Surgeons to independently perform stereotactic breast biopsy.

REFERRALS

Referrals or consults are welcome from any provider. Routine referrals may be placed in EPIC. Non-EPIC providers may refer patients by calling our office at 610-983-1980 or faxing to 610-422-5467. Please send all pertinent records at the time of referral.
